COVID-19
VACCINATION

HOW TO GET YOUR COVID-19 VACCINATION

All residential aged care workers, irrespective of age, can now get the Pfizer COVID-19 vaccine.

To make it as easy as possible for you to get your vaccine, we've arranged access to the following clinic:

DATE

TIME

- If you're unable to attend this clinic, you can find your closest vaccine provider using the federal government's eligibility checker.
- Don't forget – if you're a casual worker, and need to get vaccinated outside your workplace, you are entitled to financial support.

When you get vaccinated, you are protecting yourself and helping to protect our residents and the wider community.

Don't wait. Do it now. Vaccination saves lives.

To find out more go to
