

From the  
Clinical Service Director

Dr Sophia Otto

05 July 2022

## Register now for iPath eOrdering of respiratory testing

From Monday July 11, SA Pathology's [web-based application iPath](#) will offer an electronic ordering capability for all COVID-19 and respiratory testing and is the preferred order method for respiratory testing.

To order, select COVID-19 ONLY, or the 12-panel respiratory test, which includes COVID-19.

Electronic ordering of COVID-19 and respiratory tests via the iPath application is fast and convenient, and patients can present to any SA Pathology drive through collection facility to undertake their test.

If you do not have an iPath account, please contact our Marketing team on 8222 3355 or email [Health.SAPathologymarketing@sa.gov.au](mailto:Health.SAPathologymarketing@sa.gov.au).

iPath also provides access to patient results anywhere, anytime. Clinicians can search for patient results they did not request and were not copied in to, including results available in the public hospital system, delivering optimised continuity of care for patients and seamless access of results for clinicians.

Regards,

**Dr Sophia Otto**
